Compiled quarterly by the South Carolina Association of Municipal Power Systems

- ✓ Order of presentation based on cost for 1000 KWHs in ascending order
- ✓ All dollars represent total residential billing based on the rate on which the largest number of customers are billed
- ✓ These rates represent the base rate amount plus facilities charge, purchase power adjustments, etc.
- ✓ Data supplied by each municipal power system
- ✓ Please Note: Gaffney BPW and McCormick CPW rates were not available at the time of this survey.
